About Me

I'm a hard-working New Brunswick Community College graduate looking to apply my knowledge in the IT industry and continue to learn and develop my skills. What I lack in experience, I make up for my motivation to continue to improve myself as a programmer-analyst.

Skills

- **Software Development:**
 - Web development using a RESTful architectural style using WAMP, ASP.NET MVC, Java EE.
 - Web page design using HTML, CSS, JavaScript, AJAX, PHP, and Bootstrap.
 - Data retrieval and visualization using MicroStrategy, and Tableau.
 - Database design and implementation using Microsoft Access, MongoDB, and MySQL Workbench.
 - Quality assurance testing using Selenium and Mocha.
- **Business:**
 - Microsoft Office suite, Entrepreneurship: Ideation and Strategies.
- **Basic project management**
- **Networking**
 - General knowledge of networking fundamentals.
- **Writing**
 - Experience with applied and technical writing.

Education

New Brunswick Community College – Information Technology: Programmer-Analyst
September 2021 – June 2023

University of Manitoba – Bachelor of Science (Geophysics, Honours)
September 2015 – June 2019

Work Experience

May 2021 – September 2021, June 2022 – September 2022

Merchandising Execution Team, The Home Depot

- Restocked shelves, cleaned product areas, ensured signage was in good condition, and assisted customers.
- Required collaboration with other team members, as well as taking initiative in self-directed tasks.

May 2020 – April 2021

Shipper and Receiver, McNaught Cadillac Buick GMC

- Received all incoming warehouse parts and ensured orders were accurate and complete.
- Filled orders for shipment to out of town customers, ensuring completeness and accuracy.
- Performed inventory count for entire parts department.
- Placed orders for parts required for the body shop, service, and wholesale departments.
- Organized parts on shelves to maximize storage space; maintained cleanliness of parts department.

August 2019 – March 2020

Parts Driver, McNaught Cadillac Buick GMC

- Picked parts out of stock to deliver to customers in the city.
- Maintained good customer relations to ensure repeat wholesale customers.

June 2014 – August 2019

Lot Attendant, McNaught Cadillac Buick GMC

- Handled movement of all vehicles on dealership property.
- Performed miscellaneous tasks as needed.

Volunteer Work

New Brunswick Community College – Littler River Reservoir Cleanup

April 8th, 2022

University of Manitoba – Geophysics Student Society Treasurer

September 2018 – June 2019

University of Manitoba – Geophysics Student Society Third Year Representative

September 2017 – June 2018

Project and Other Related Activities

Inventory System

- Simulated role as a programmer analyst tasked with building an inventory management system for a pretend sports company.
- Interviewed key personnel, identifying pain points with the system, wants and needs for a new system, created reports at the end of each sprint.
- Created UML diagrams, use cases, and wireframes of the proposed system.
